

AGRICULTURAL & PLANTATION TOOLS

spades, forks, shovels and plantation tool ranges

Professional quality agricultural and plantation tools

& PLANTATION

SPEAR & JACKSON

export spades & forks

Features & Benefits

banjo fork
deep dish tines

Product Code: 1635AL
Tine Size: 14" x 9" (355 x 230mm)
Shaft Size: 31" (787mm)

- Banjo label - deep dish tines
- Tubular shaft
- Metal YD handle

banjo fork
deep dish tines

Product Code: 1631CP
Tine Size: 13 1/4" x 9" (340 x 230mm)
Shaft Size: 31" (787mm)

- Banjo label - deep dish tines
- 5 rivet strapped
- Weatherproofed shaft
- Wood R.E.H handle

banjo fork
shallow dish tines

Product Code: 1702FLW
Tine Size: 13 1/4" x 9" (340 x 230mm)
Shaft Size: 31" (787mm)

- Banjo label - shallow dish tines
- 5 rivet strapped
- Weatherproofed shaft
- Wood R.E.H handle

digging fork

Product Code: 1575AN
Blade Size: 12" x 8 1/2" (305 x 215mm)
Shaft Size: 28" (710mm)

- Solid forged, epoxy coated
- Tubular shaft
- PY handle

digging spade

Product Code: 1175AE
Blade Size: 11" x 7" (280 x 180mm)
Shaft Size: 28" (710mm)

- Solid forged, epoxy coated
- Tubular shaft
- PY handle

gum spade

Product Code: 1027AY
Blade Size: 11 1/2" x 7 1/4" x 6 3/4" (290 x 185 x 170mm)
Shaft Size: 28" (710mm)

- Solid forged, epoxy coated
- Tubular shaft
- MYD handle

huaco vineyard
spade

Product Code: 1307CTP
Blade Size: 12" x 8" (305 x 200mm)
Shaft Size: 28" (710mm)

- Solid forged
- Fully polished blade
- Weatherproofed shaft
- MYD handle

manure drag & forks

Specification, Features & Benefits

manure drag PY

Product Code: 1636DE

Originally designed for raking manure into a pile. Also suitable for removing debris from ditches, rivers and ponds

- Epoxy coated square tines
- Tubular steel shaft

manure drag PT

Product Code: 1636AY

Originally designed for raking manure into a pile. Also suitable for removing debris from ditches, rivers and ponds

- Epoxy coated square tines
- Tubular steel shaft

manure drag LK

Product Code: 1609CS

Originally designed for raking manure into a pile. Also suitable for removing debris from ditches, rivers and ponds

- Epoxy coated square tines
- Solid socket with weatherproofed hardwood shaft

manure fork LK

Product Code: 1636CU

Lightweight, solid socket fork for general clearing tasks

- Epoxy coated oval tines
- Solid socket
- Tubular steel shaft
- Designed for maximum strength and durability

hay forks & rakes

Specification, Features & Benefits

hay fork LK

Product Code: 1600HS

A traditional tool for moving hay and straw bales

- Epoxy coated oval prongs
- Solid socket
- Weatherproofed hardwood shaft
- Round shoulders for ease of use

hay fork T

Product Code: 1600FD

A traditional tool for moving hay and straw bales

- Epoxy coated oval prongs
- Solid socket
- Weatherproofed hardwood shaft
- Round shoulders for ease of use

hay fork LK

Product Code: 1602BA

A traditional tool for moving hay and straw bales

- Epoxy coated oval prongs
- Solid socket
- Weatherproofed hardwood shaft
- Round shoulders for ease of use

alloy hay rake

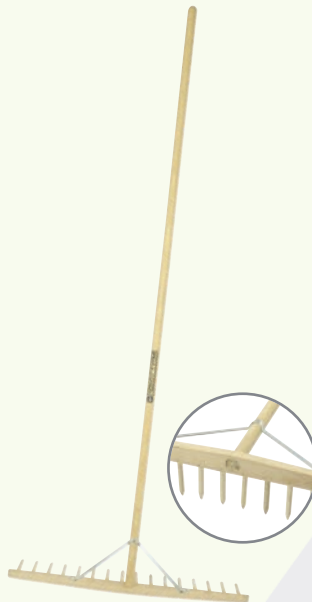

Product Code: 8206AH

Ideal for collecting hay, straw and grass cuttings. Also useful for levelling surfaces and sand bunkers on golf courses

- Lightweight for ease of use
- Extra long shafts for greater reach

wooden hay rake

Product Code: 8207WH

Ideal for collecting hay, straw and grass cuttings. Also useful for levelling surfaces and sand bunkers on golf courses

- Lightweight for ease of use
- Extra long shafts for greater reach

export spades & shovels

Features & Benefits

dominion spade
size 2

Product Code: 1048BR
Blade Size: 11½" x 7½" (290 x 190mm)
Shaft Size: 48" (1220mm)

- Solid forged
- Fully polished blade
- Weatherproofed shaft
- LK handle

fox shovel py

Product Code: 2050AV
Blade Size: 12¼" x 9" (310 x 230mm)
Shaft Size: 28" (710mm)

- Round mouth
- Solid socket
- Solid forged
- Weatherproofed hardwood shaft

fox shovel lk

Product Code: 2050DB
Blade Size: 12¼" x 9" (310 x 230mm)
Shaft Size: 48" (1220mm)

- Round mouth
- Solid socket
- Solid forged
- Weatherproofed hardwood shaft

handle types

Long knob

MYD

shovel 12½"

Product Code: 2521EC
Blade Size: 12½" x 10" (320 x 255mm)
Shaft Size: 32" (810mm)

- Open socket
- Square mouth
- Weatherproofed hardwood shaft
- PY handle

shovel 13¾"

Product Code: 2521LY
Blade Size: 13¾" x 11" (350 x 280mm)
Shaft Size: 32" (810mm)

- Open socket
- Square mouth
- Weatherproofed hardwood shaft
- PY handle

shovel 14½"

Product Code: 2521QT
Blade Size: 14½" x 12" (370 x 305mm)
Shaft Size: 32" (810mm)

- Open socket
- Square mouth
- Weatherproofed hardwood shaft
- PY handle

PY

Wood R.E.H

export plantation tools

Features & Benefits

yam spade

Product Code: 3677BA
Blade Size: 8" (203mm)

- Self tanged, self colour
- Heads only

tanga field hoe

Product Code: 3678AV
Blade Size: 7" (178mm)

- Solid forged, epoxy coated
- Heads only

fem hooks single edge

Product Code: 4680AU
Blade Size: 13½" (343mm)

- Single edge
- Heads only

fem hooks double edge

Product Code: 4681AV
Blade Size: 13½" (343mm)

- Double edge
- Heads only

oil palm knives

Product Code: 4782AB
Blade Size: 11½" (295mm)

- Flat tang
- Heads only

cocoa pruners

Product Code: 4774BM
Blade Size: 3¼" (83mm)

- Forged head, epoxy coated
- Heads only

machete

Product Code: SJ144821
Blade Size: 21" (538mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ270220
Blade Size: 20" (508mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ270222
Blade Size: 22" (559mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ23220
Blade Size: 20" (508mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ23222
Blade Size: 22" (559mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ23016
Blade Size: 16" (406mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ23018
Blade Size: 18" (457mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ23020
Blade Size: 20" (508mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ23022
Blade Size: 22" (559mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ5180718
Blade Size: 18" (457mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ141019
Blade Size: 19" (482mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ120219
Blade Size: 19" (482mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ1102011
Blade Size: 11" (280mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ2100615
Blade Size: 15" (381mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ233514
Blade Size: 14" (356mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

machete

Product Code: SJ233518
Blade Size: 18" (457mm)

- Made from Sheffield steel
- Edge sharpened and tempered
- 2.5mm thick roll forged blade
- Hardened for strength and reliability

slashers & brushing hooks

Specification, Features & Benefits

heavy duty
double

Product Code: 4604BY

Ideal for thinning, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

heavy duty
single

Product Code: 4601BT

Ideal for thinning, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

staff brushing
hook

Product Code: 4655BM

Ideal for thinning, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

irish slasher

Product Code: 4605BU

Ideal for thinning, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

heavy brushing
slasher

Product Code: 4607CE

Ideal for thinning, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

other hooks and misc

Specification, Features & Benefits

stafford
bill hook

Product Code: 4550AP

Used for hedgerow maintenance and hedge laying

- Epoxy coated heads for rust resistance
- Solid socket
- Weatherproofed handle
- Double edged blade
- Round grip handle

newton
bill hook

Product Code: 4501BZ

Used for hedgerow maintenance and hedge laying

- Epoxy coated heads for rust resistance
- Solid socket
- Weatherproofed handle
- Single edged blade
- Pistol grip handle

southern counties
bill hook

Product Code: 4516AZ

Used for hedgerow maintenance and hedge laying

- Epoxy coated heads for rust resistance
- Solid socket
- Weatherproofed handle
- Single edged blade
- Pistol grip handle

fussel
bristol reap

Product Code: 4700BU

Used to cut through rough grass and weeds

- Forged, flat blade with through tang
- Hardwood handle
- Round grip handle

“john riley”
irish hook

Product Code: 4717BT

Used to cut through rough grass and weeds

- Forged, flat blade with through tang
- Hardwood handle
- Round grip handle

grain shovel

Product Code: 2750AG

Mainly used by farmers or the food industry for shovelling loose materials

- Open socket
- Square mouth
- Lightweight
- Rust proof
- Can be sterilised

rabbiting spade

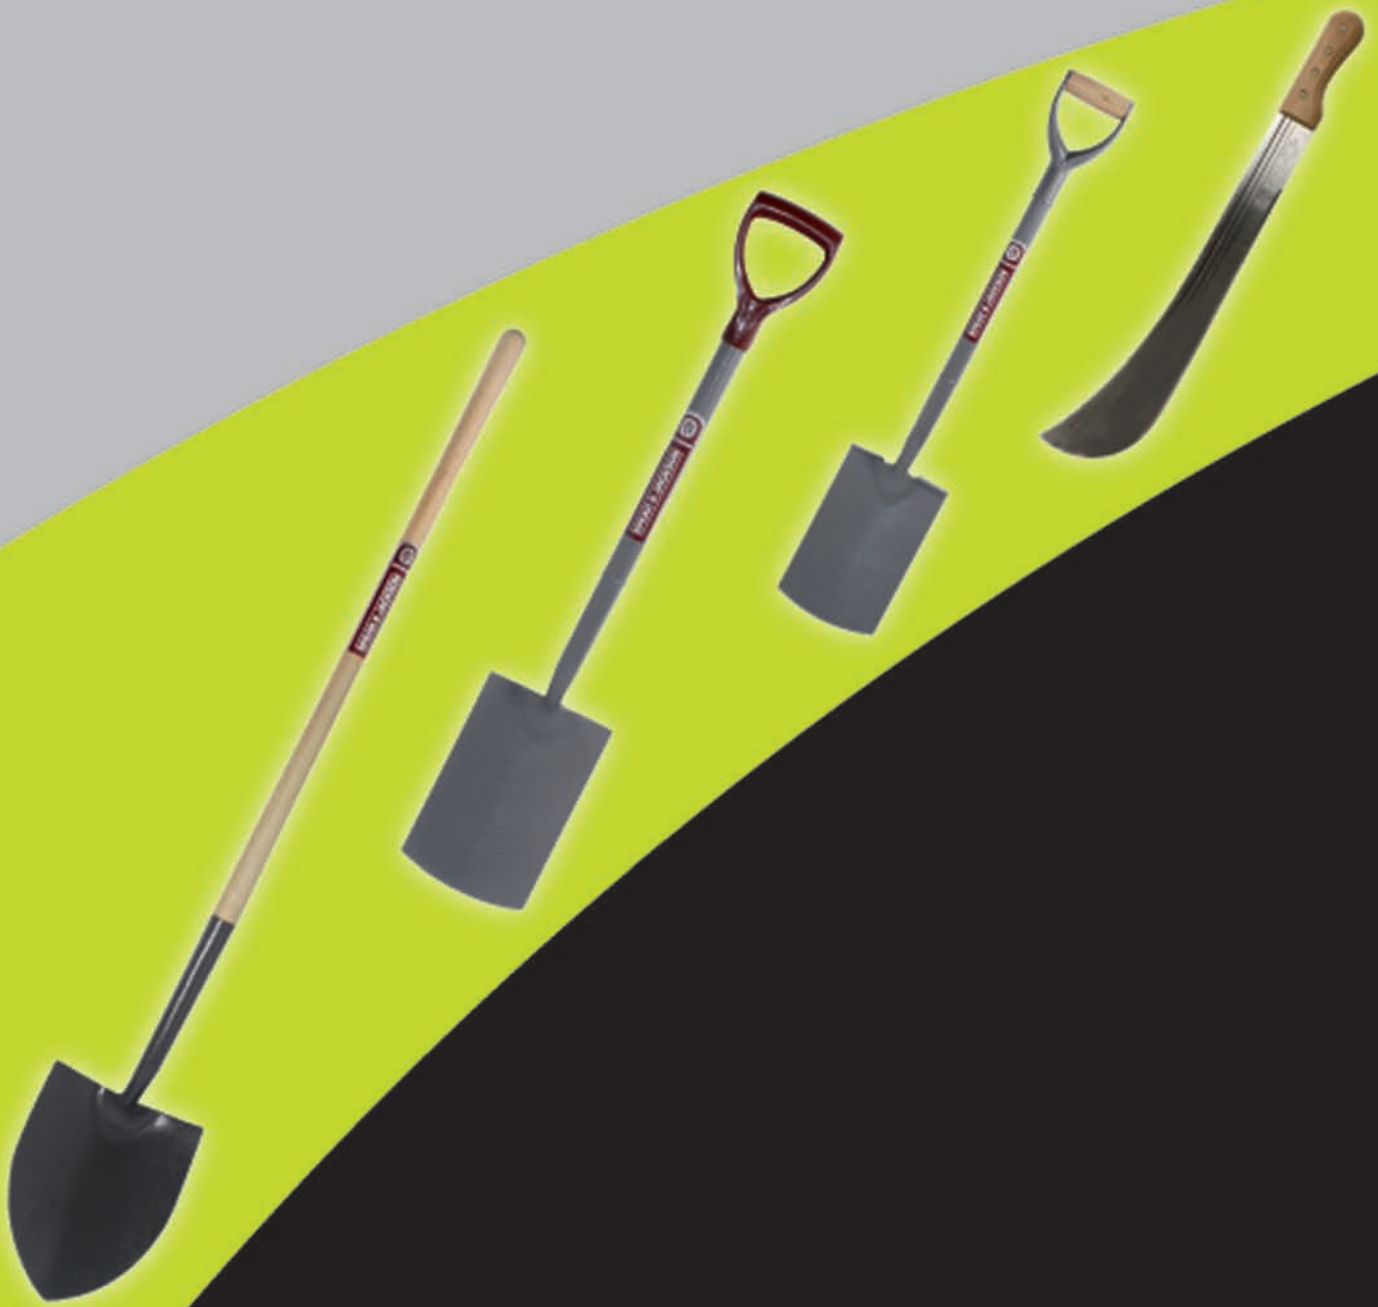

Product Code: 1047MY

Ideal for digging fence post holes and planting sapling trees

- Epoxy coated head for reduced soil adhesion
- Weatherproofed hardwood shaft
- Heavy duty metal hilt
