OSCILLATING MULTI-TOOL BLADES NEW

Introducing 10 new options to our best-selling range of Oscillating-Multi Tool Blades. Eclipse Oscillating Multi-Tool blades feature a universal fitting compatible with most corded and cordless Oscillating Multi-Tool machines.

30 x 65mm Hardwood Plunge Cut Oscillating Multi-Tool Blade

- Provides extended depth for plunge cuts up to 65mm
- A particularly good blade for hardwood applications
- Ideal for use on wood, plasterboard and plastic

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EC-HP3065WS	Oscillating Multi-Tool 30 x 65mm Hardwood Plunge Cut pack of 5 blades	5012095628057	10 packs of 5 blades	£19.99

45 x 55mm Hardwood Plunge Cut Oscillating Multi-Tool Blade

- Provides extended depth for plunge cuts up to 55mm
- A particularly good blade for hardwood applications
- Ideal for use on wood, plasterboard and plastic

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EC-HP4555WS	Oscillating Multi-Tool 45 x 55mm Hardwood Plunge Cut pack of 5 blades	5012095628071	10 x packs of 5 blades	£21.99

34mm Carbide Teeth Plunge Cut Oscillating-Multi-Tool Blade

- 40mm cutting depth
- Carbide teeth for cutting rebar, nails, screws, stainless steel bolts, galvanised pipe, hardwood, plaster, cement board, fibre board, sheet metal, slate and ceramic tile

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EC-CP3440WM	Oscillating Multi-Tool 34mm Carbide Teeth Plunge Cut Single Blade	5012095628095	10 x packs of 1 blade	£18.99

86mm Bimetal Convex Segment Oscillating Multi-Tool Blade

- Bimetal material for increased cutting life
- Ideal for perfect flush cuts in nails, plastics, fiberglass, non-ferrous materials and sheet metal up to 1mm

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EC-BM86SEG	Oscillating Multi-Tool 86mm Bimetal Convex Segment Single Blade	5012095628118	10 x packs of 1 blade	£13.99

Oscillating Multi-Tool 68mm HCS Standard Tooth Blade

- Ideal for clean flush cutting on wood, plasterboard, and plastic
- An excellent choice for large area cutting
- Cutting depth: 40mm

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EC-MF6840WS	Oscillating Multi-Tool 68mm HCS Standard Tooth pack of 5 blades	5012095628019	10 x packs of 5 blades	£13.99

Oscillating Multi-Tool 45mm Bimetal Plunge Cut Blade

- Ideal for plunge and flush cuts in sheet metal, fibreglass, drywall, plastics, wood, and nail-embedded wood
- Step-down flush cut design allows the operator to lay the blade flat on a guide surface for a controlled perpendicular cut

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
ECMB4555WM	Oscillating Multi-Tool 45mm Bimetal Plunge Cut pack of 5 blades	5012095628033	10 x packs of 5 blades	£21.99

4 piece Oscillating Multi-Tool Blade Set with Triangular Rasp

- 34mm HCS Blade with a cutting depth of 40mm for cutting wood, plasterboard, and plastic
- 80mm Carbide Grit Triangular Rasp for cutting wood, tile adhesive, stone and concrete
- 86mm HCS Segment Blade for cutting wood and plastic
- 51mm HCS Scraper Blade for paint and lacquer

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EC-M1101SET	4 piece Oscillating Multi-Tool Blade set with Triangular Rasp	5012095628132	10	£13.99

OSCILLATING MULTI-TOOL BLADES

4 piece Oscillating Multi-Tool Blade Set with 34mm Bimetal Blade

- 34mm HCS Blade with a cutting depth of 40mm for cutting wood, plasterboard, and plastic
- 34mm Bimetal Blade for cutting metal, plastic, wood and nails
- 86mm HCS Segment Blade for cutting wood and plastic
- 51mm HCS Scraper Blade for paint and lacquer

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EC-M1102SET	4 piece Oscillating Multi-Tool Blade set with 34mm Bimetal Blade	5012095628156	10	£11.99

Oscillating Multi-Tool Blades and Sanding Pad Set

- 34mm HCS Blade with a cutting depth of 40mm for cutting wood, plasterboard, and plastic
- 80mm HCS Segment Blade for cutting wood and plastic
- 64mm Carbide Grit Segment Blade for cutting concrete, grout and mortar
- Triangular Sanding Pad
- 3 x Triangular Sanding Papers for wood and tile adhesive

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EC-M1103SET	4 piece Oscillating Multi-Tool Blades and Sanding Paper set	5012095628170	10	£13.99

Oscillating Multi-Tool 20 x Triangular Sanding Papers in mixed grades

- 6 x 60 Grit
- 6 x 240 Grit
- 8 x 120 Grit
- Ideal for sanding wood and tile adhesive

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EC-M1105SET	Oscillating Multi Tool 20 x Triangular Sanding Papers in mixed grades	5012095628194	10	£5.99

ABRASIVE WHEELS

NEW

Our new range of Abrasive Wheels are highly efficient at shaping, cutting, and grinding hard materials. The range offers cut off wheels, chop saw wheels, and depressed centre grinding wheels in a variety of different sizes and abrasive grades.

Made to the highest quality and safety standards they are fully compliant with EN12413 and ANSI B7.1 standards

As with all power tool accessories it's important to ensure that you choose the right abrasive wheel for the material being treated and that the wheel is rated for the speed of the tool.

Part No.	Size (mm)	Size (in)	Specification Mark (Grain, Hardness Bond)	Shape / type of wheel	Max Operating Speed	Application

HSS M2 Roll Forged Engineers Drills

Ideal for general use drilling applications, such as fixing holes, tapping and clearing, automotive maintenance, light engineering, workshops, plumbing and electrical applications.

- Wear-resistant high speed steel remains hard and durable when exposed to increased friction and heat during drilling
- Precision ground for a fast, clean cut
- 3-flat shanks prevent any slipping in the chuck, and provide powerful high-torque transmission
- 135° split point design helps to centre the drill accurately and reduce wander for fast, powerful drilling
- Life rating 1 - Suitable for drilling most woods, metals, and plastics

Multi-Function Handle with Reciprocating Saw Blades Set

Our new Multi-Function Handle with Reciprocating Saw Blades Set is ideal for working in hard-to-reach spaces, and proves a useful back up alternative when your powered reciprocating machines are not an option.

- Quick release mechanism for rapid blade changing
- Ergonomic handle grip for comfort and control when cutting
- The blades have universal fittings compatible with most powered reciprocating saws

It comes with three interchangeable reciprocating blades for cutting:

- Metal
- Wood
- Nail-embedded wood

Part No.	Description	Barcode	Pack Qty.	SSP inc. VAT
EMFH4PS	Multi-Function Handle with Reciprocating Saw Blades Set	5012095630036	5	£17.99

Pro-Plus Hacksaw 23T

Featuring a new style cast alloy frame and an all-hard handle, the 70-23TR Hacksaw frame is ergonomic, easy to clean, and highly resistant to wear and tear.

- Cuts on the forward stroke, ideal for working with a wide range of metal sections and tubing
- Comes fitted with a 24TPI Predator Bimetal Blade, suitable for cutting most metals and plastics
- Strong but lightweight cast alloy frame provides greater control when cutting
- Ergonomic all-hard handle is comfortable to hold and easy to keep clean

70-23TR	Pro-Plus Hacksaw 23T	5012095629917	5	£21.99

8 Piece Metric Colour-coded T-Grip Hex Keys Set

A useful alternative to standard Hex Keys. The T-Grip handle allows for greater torque when tightening or releasing fitments

- 2mm to 10mm sizes
- Colour coded for easy identification
- Chrome vanadium steel for strength and durability
- Ball ended keys allow for a 20° incline in angle for use in awkward positions
- Handy storage case converts into a stand for convenience and ease of use

9 Piece Colour-coded Extra Long Hex Keys Set

Hex Keys are simple tools used to drive bolts and screws with hexagonal sockets in their heads. The Eclipse Hex Key range features easily identifiable colour-coded keys, ball-ended for ease of use in awkward positions. This new set features extra-long keys for enhanced reach when working in hard to access spaces. On average, each extra-long hex key is approximately 20% longer than a standard hex key.

- 1.5mm to 10mm sizes
- Extra-long keys for enhanced reach
- Colour coded for easy identification
- Chrome vanadium steel for strength and durability
- Ball ended keys allow for a 20° incline in angle for use in awkward positions
- Handy durable storage case for safe keeping

Eclipse Square Drive Ratchet Handles

Our new Eclipse Ratchet Handles have 72 teeth (72T) on the drive gear, so the handle needs to move just 5 degrees to engage the next tooth for easy, rapid adjustments with maximum torque and minimal effort. The 72T mechanism allows adjustments to be made in tight spaces where a larger swing arc might not work.

Available in three drive sizes: 1/4", 3/8" and 1/2"

- Made from Chrome Vanadium Steel for strength and durability
- A quick release button on the ratchet head allows for speedy removal of the socket or accessory
- Ergonomic soft-feel handles are comfortable to hold and easy to wipe clean

Part No.	Description	Barcode	Box Qty.	SSP inc. VAT
ERH14	1/4" Square Drive Ratchet Handle	5012095629979	10	£9.99

6" Woodworking Vice

Our new 6" Woodworking Vice features a plain screw mechanism for smooth operation - the same mechanism as the existing EWWPS Series Vices, but with a fresh new look.

- Plain screw mechanism works through a separate unbreakable nut housed beneath the body seating to ensure constant alignment of the screw mechanism for smooth action
- Body and sliding jaw manufactured from high quality cast iron to provide excellent shock absorption
- Slide is precision milled to a high tolerance for a fast, smooth operation
- Tommy bar will bend before the vice becomes overstressed
- Clamping force = 600Kgf

Solid Steel Hammers

- Solid forged from one piece of carbon steel for strength and durability
- Polished striking face with chamfered edges to avoid chipping
- Ergonomic bi-material handles with soft feel shock reducing grips for secure and comfortable handling

Solid Steel Ball Pein Hammers

Engineers Ball Pein Hammers, also known as the machinist hammer, are designed with one flat face and one ball face.

The flat side is used for striking punches and chisels.

The rounded head, called Pein or Peen, is used for rounding off the edges of metal pins and fasteners, such as rivets. It may also be used for shaping materials and flattening or removing dents from sheet metals.

SJ-BPSS16	Solid Steel 16oz Ball Pein Hammer	5012095629856	6	£24.99
SJ-BPSS24	Solid Steel 24oz Ball Pein Hammer	5012095629863	6	£27.99
SJ-BPSS32	Solid Steel 32oz Ball Pein Hammer	5012095629870	6	£29.99

Solid Steel Brick Hammer

Brick Hammers are designed with one flat face and a long chisel-shaped blade on the opposite side. They are commonly used for splitting, trimming, cleaning, and setting bricks, stone, or masonry.

The flat square face is used for setting bricks and blocks.

The chisel end is used to cleanly split bricks, cinder blocks or concrete masonry without using a separate chisel. Additional uses include chipping off small pieces of stone and scraping away cement from old bricks to allow them to be reused.

SJ-BSS22	Solid Steel 22oz Brick Hammer	5012095629849	6	£24.99

Solid Steel Claw Hammer

Claw Hammers are primarily used in carpentry for driving nails into or pulling nails from wood. They are a useful DIY tool as well as being widely used on construction sites and in tool shops.

The flat striking face is used for driving nails and features a magnetic nail holder.

The curved, claw-like end is used for prising and levering out nails and pins.

SJ-CSS15	Solid Steel 15oz Claw Hammer	5012095629832	6	£27.99

Solid Steel 3lb Club Hammer

Club hammers have a short handle and small head that is flat on both sides. Ideal for delivering short, heavy blows typically used with cold chisels and brick bolsters for light demolition work and for cutting rocks or metal.

They may be used with one hand and are also suitable for driving nails into masonry.

SJ-MCSS48	Solid Steel 3lb Club Hammer	5012095629887	6	£29.99

DOUBLE FACE SLEDGE HAMMER

Solid Steel 10lb Double Face Sledge Hammer

Sledgehammers are heavy duty hammers used for demolition jobs where high force is required such as for breaking through drywall, masonry and for breaking up rocks and concrete.

A large flat metal head is attached to a long handle which allows the hammer to gain momentum whilst swinging, delivering much greater force than a standard hammer.

Our double-faced Sledgehammer has one standard flat striking face and one cross striking face for efficient impact.

- Drop-forged carbon steel head with a graphite core for enhanced strength and durability
- Reinforced collar for added protection against over hit and under hit
- Polished striking face with chamfered edges to avoid chipping
- Ergonomic bi-material handles with shock-reducing grips for secure and comfortable handling
