Introducing the new Soft Feel Hacksaw and Mini Saw. Designed with ergonomic soft feel handles to enhance user comfort during prolonged use.

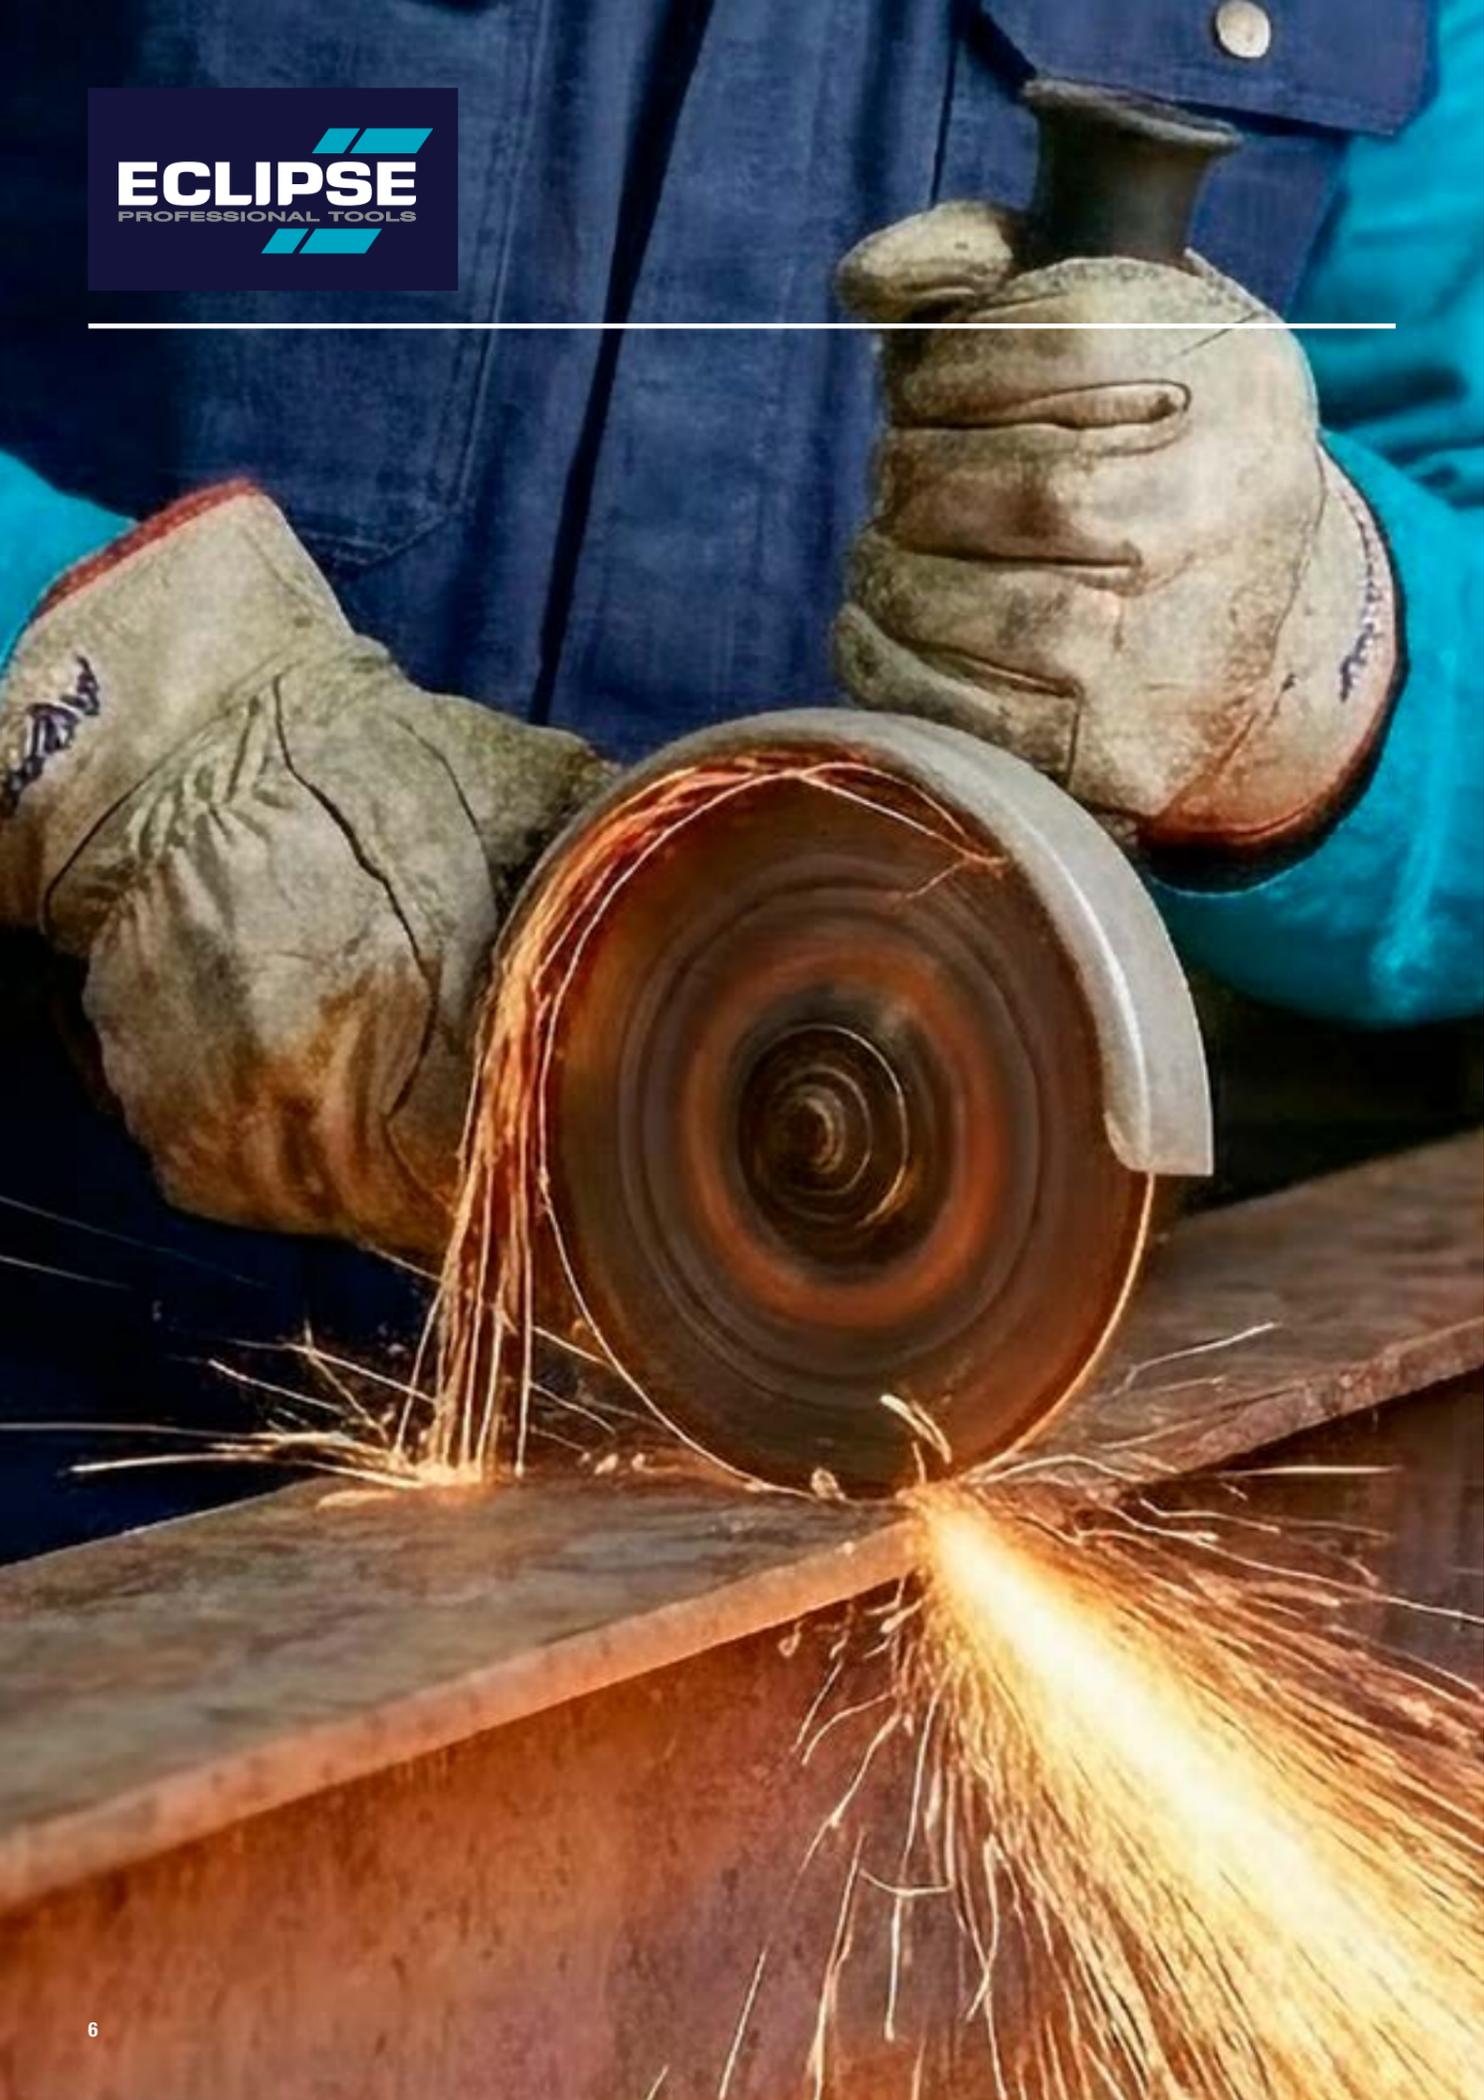

Soft Feel Hack Saw & Soft Feel Mini Saw

- Strong, durable, and lightweight Aluminium frames
- Soft feel comfort grips
- Quick blade change mechanisms
- Cuts on forward stroke only
- Features alternative blade mountings for flush cutting:
 - Soft Feel Hacksaw offers an alternative 45° blade mounting
 - Soft Feel Mini Saw offers six different blade settings
- Fitted with free issue blades:
 - Soft Feel Hacksaw fitted with 12" (300mm) Eclipse Predator Bi-Metal 24TPI Hacksaw Blade
 - Soft Feel Mini Saw fitted with a 6" (150mm) Eclipse Predator 32TPI Metal Cutting Blade

The new Ultra-Thin Cutting Wheels are engineered to deliver exceptional precision and efficiency, making them an ideal choice for applications where accuracy and material conservation are critical. Their slim profile allows for smooth, controlled cuts with minimal resistance, reducing material loss and heat generation during operation. Suitable for a wide range of materials, these products offer a superior performance in both professional and industrial settings.

Ultra-Thin Cutting Wheels

- 1mm ultra-thin edge, for making clean, precise cuts for tasks requiring fine detail
- High cutting speed, use for cutting most ferrous metals including stainless steel (INOX) and carbon steel
- Minimal heat generation reduces the risk of material warping or discolouration
- Reduced material loss, the small cut width or kerf minimises material waste, important when working with expensive materials
- High-performance stainless steel grade
- Maximum RPM 12250

Introducing a new range of All Metal Square Drive Ratchet Handles. With three popular sized ratchet handles, made from Chrome Vanadium Steel with a Chrome finish, these products are ideal when working in dirty/oily environments where easy cleaning is needed. Typically used by mechanics for automotive repair/motorcycle work, HVAC techs, Plumbers and DIYers.

All Metal Square Drive Ratchet Handles

- 72 teeth / 5° increment ratchets for smooth operation
- Clockwise and anticlockwise ratchet mechanism for tightening and loosening nuts and bolts
- Chrome Vanadium ratchets for strength and durability, with a Solid Steel Chrome finish for easy cleaning
- Our Eclipse square drive ratchets have a quick release button on the ratchet head for speedy removal of sockets and accessories

Introducing the 1/2" Square Drive 24-Piece Metric Set to the range. It features a variety of sockets, insert bits, and accessories - all supplied in a hard-wearing case, clearly laid out for easy identification and organisation. Ideal for everyday automotive work and DIY.

1/2" Square Drive 24-Piece Metric Socket Set

- 72 teeth / 5° increment ratchets for smooth operation
- Chrome Vanadium sockets are strong and durable, with six-point hex to reduce any slippage or rounding over of corners
- Our Eclipse ratchets have a quick release feature for quickly removing sockets or accessories, with ergonomic soft feel handles for increased comfort during use

Set Contents

- 15 x 1/2" sockets: 10mm-32mm
- 1 x 1/2" 125mm extension bar
- 1 x 1/2" 250mm extension bar
- 1 x 1/2" 16mm spark plug socket
- 1 x 1/2" 21mm spark plug socket
- 1 x 1/2" 72T ratchet
- 1 x 1/2" 3-way adaptor
- 1 x 1/2" universal joint
- 1 x 1/2" 250mm F handle
- 1 x empty plastic box

The latest addition to the Eclipse Screwdriver range is the 7-Piece Ratchet Screwdriver Set. This versatile set includes six interchangeable screwdriver bits, conveniently stored within the drive handle for quick access and portability - making it ideal for a wide range of DIY tasks. Equipped with a smooth ratchet mechanism, the screwdriver offers forward, reverse, and locked positions for effortless tightening and loosening of screws. Crafted from high-quality materials for enhanced strength and durability, and featuring an ergonomic plastic handle, this set ensures both user comfort and long-lasting performance.

7-Piece Ratchet Screwdriver Set

- Ratchet mechanism allowing for easy forward, reverse, and locking positions when tightening and loosening screws
- Ergonomic plastic handle for enhanced user comfort
- Convenient compartment inside the handle for securely storing the six screw bits
- Manufactured from high quality materials ensuring durability and resistance to wear and tear

Set Contents

- Ratchet Handle
- 3x Phillips Screw Bits : PH1, PH2, PH3
- 3x Slotted Screw Bits : 4mm, 5mm, 6mm

The new 3-Piece Honing and Sharpening Kit is designed to make sharpening simple for both professional and DIY woodworkers. Featuring a Honing Guide, Sharpening Stone and Lubricating Oil, this set allows you to maintain and improve the quality of a variety of tools by offering clean and precise blade refinement.

3-Piece Honing & Sharpening Kit

- The Honing Guide has a durable, carbon steel body for secure and precise blade sharpening
- White Fused Alumina sharpening stone for reliable blade refinement
- Lubricating Oil for reduced friction and smoother movement when sharpening
- Ideal for sharpening wood chisels, plane irons, spokeshave blades and carving tools
- Effectively maintains tool blades, reducing the need for replacements

Set Contents

- Honing Guide
- Sharpening Stone
- Lubricating Oil

A new addition to the Eclipse Plumbing Tools range for easy one-handed cutting of PVC, Polythene, MAP and Polyethylene pipe, HEP 20, Plastic overflow pipes and rubber hoses.

Ratchet Action Pipe Cutting Gun

- Cuts pipes up to 42mm in diameter
- Lightweight but strong Aluminium head and handles
- Carbon steel PTFE coated cutting blade for a smooth and clean cut
- Pistol-type ratchet action allows for easier cutting in measured increments and avoids over exertion of pressure that could crush or fracture the pipe
- Blade retracts automatically once the cut is completed
- User tip: When working in cold conditions immerse plastic pipe in lukewarm water to make it less brittle and to reduce the risk of the pipe fracturing

Part No.	Description	Barcode

The Eclipse 4-In-1 Pipe Cleaning and Deburring Tool is designed for both internal and external cleaning of 15mm/0.59" and 22mm/0.87" diameter copper pipes. Engineered with high-carbon steel bristles, this versatile multi-tool is suitable for tackling tougher rust, corrosion, and other unwanted substances with ease. Whether you're working with residential or industrial plumbing, this tool efficiently restores pipes, ensuring smooth, clean surfaces for optimal functionality.

4-In-1 Pipe Cleaning & Deburring Tool

- Suitable for cleaning 15mm/0.59" and 22mm/0.87" diameter copper pipes, both internally and externally
- Also suitable for cleaning battery posts and terminals
- High carbon steel bristles for strength and durability
- Compact and easy to carry

Part No.	Description	Barcode
E4IN1PCDT	4-In-1 Pipe Cleaning & Deburring Tool	5012095631606

New to the Eclipse Gripping and Plumbing Tools range is the 7-Piece Combination Non-Ratchet Wrench Set. With seven different sized wrenches made from Chrome Vanadium Steel and with a satin finish, these tools are designed for durability in hard-wearing environments. Each wrench has a solid body and head for a controlled torque, and a non-ratchet mechanism for tightening and loosening nuts and bolts.

7-Piece Combination Non-Ratchet Wrench Set

- Made from Chrome Vanadium Steel with a satin finish for strength, durability, and rust resistance
- Solid body and head for a controlled torque
- Non-ratchet mechanism for tightening and loosening nuts and bolts with precision
- Great for breaking loose super-tight or rusted bolts where maximum grip and force are needed

Set Contents

- 1x Non-Ratchet Wrench per size:
- 8mm, 10mm, 12mm, 13mm, 14mm, 17mm, 19mm

Part No.	Description	Barcode
ECW7PS	7-Piece Combination Non-Ratchet Wrench Set	5012095632016

Also new to the Eclipse Gripping and Plumbing Tools range is the 7-Piece Fixed Head Combination Ratchet Wrench Set. Featuring seven of the most commonly used sizes, each wrench is crafted from durable Chrome Vanadium Steel with a satin finish - ideal for tasks that require a firm, reliable grip. These products have a solid body with a fixed position ratcheting box-end. They are ideal for use where there is a clear, straight shot at the fastener and where there is no need to angle the wrench. The ratchet mechanism allows for quick, easy tightening and loosening of nuts and bolts. They are strong and dependable for use where high-torque is needed.

7-Piece Fixed Head Combination Ratchet Wrench Set

- Typically used in jobs like automotive, machine assembly, construction or general maintenance where the bolts are easily accessible
- Made from Chrome Vanadium Steel with a satin finish for strength, durability, and rust resistance
- Solid body and head for a controlled torque
- Ratchet mechanism for tightening and loosening nuts and bolts
- 90 teeth / 4° increment for fast and smooth action

Set Contents

- 1x Ratchet Wrench per size:
- 8mm, 10mm, 12mm, 13mm, 14mm, 17mm, 19mm

Part No.	Description	Barcode
ERWFIX7PS	7-Piece Fixed Head Combination Ratchet Wrench Set	5012095631651

Introducing the 7-Piece Flexible Head Combination Ratchet Wrench Set. Comprising of seven popular sizes, each made from high-performance Chrome Vanadium Steel and with a satin finish, these wrenches deliver excellent grip and handling. The adjustable heads allow for greater manoeuvrability in confined or hard-to-reach spaces. The ratcheting mechanisms allows for turning the fastener without lifting and repositioning the wrench after every move, for easy, speedy tightening and loosening of nuts and bolts.

7-Piece Flexible Head Combination Ratchet Wrench Set

- Typically used by mechanics for automotive repair/motorcycle work, HVAC techs, Plumbers and DIYers
- Made from Chrome Vanadium Steel with a satin finish for strength, durability, and rust resistance
- Adjustable angle head for easier movement in confined spaces
- 90 teeth / 4° increment for fast and smooth ratchet action

Set Contents

- 1x Ratchet Wrench per size:
- 8mm, 10mm, 12mm, 13mm, 14mm, 17mm, 19mm

ERWFLEX7PS	7-Piece Flexible Head Combination Ratchet Wrench Set	5012095631668

Introducing the new 4" Carpenters' Beech Mallet, an essential tool for woodworkers who require precision and control. A large rectangular wooden head allows the mallet to deliver consistent, balanced strikes. Its lightweight yet durable wooden construction offers ergonomic handling, making it ideal for prolonged use in both workshop and on-site environments. Perfect for chiselling, assembling joints, and general woodworking tasks.

4" Carpenters' Beech Mallet

- Large rectangular head allows for consistent, controlled blows over a wide striking area
- Wooden heads minimizes damage to chisel handles and wooden joints when struck
- Lightweight wooden design offers ergonomic handling and reduces user fatigue

Part No.	Description	Barcode
CMALL4	4" Carpenters' Beech Mallet	5012095633198

Experience the perfect combination of tradition, craftsmanship, and high-performance with the new 5-Piece Heritage Wood Chisel Set. Handcrafted in Sheffield, these chisels are for precision cutting, carving, and shaping of tougher woods. This new set marks the debut of the Heritage Collection, Spear and Jackson's premium range of Carpenters' Tools. Each tool is meticulously handcrafted with care, quality, and integrity to uphold the most prestigious standards of traditional woodworking.

5-Piece Heritage Wood Chisel Set

- Fully hardened and tempered Chrome Vanadium Steel blades for strength and durability
- With 25° primary bevel, and a 30° secondary bevel for when cutting harder woods
- Gilt-edge tapered bolster with leather washer
- Boxwood handles for strength and resistance to splitting
- Complies with BS1943

Set Contents

- 1x per size wood chisel: ¼" (6mm), ⅜" (10mm), ½" (12mm), ¾" (19mm), 1" (25mm)

Part No.	Description	Barcode
SJ5PCSET	5-Piece Heritage Wood Chisel Set	5012095632399

This tool combines strength, reliability, and ease of use for outstanding woodworking results. Its adjustable carbon steel blade ensures precise scraping and clean finishes, while the solid cast iron body is both strong and durable. Designed with ergonomically shaped handles, it offers a comfortable grip and steady control during detailed work. Perfect for refining and preparing wooden surfaces, it helps achieve a smooth foundation ready for staining or varnishing.

Cabinet Scraper

- Adjustable carbon steel blade for enhanced strength and accuracy when scraping
- Robust cast iron body for durability and stability during use
- Ergonomically designed handles for control and comfort
- Ideal for smoothing and finishing wooden surfaces and preparing wood for staining or varnishing

Part No.	Description	Barcode
CABSCRAP	Cabinet Scraper	5012095633204

Introducing the new Concave and Convex Spokeshaves, perfect for carpenters who want a high-quality, polished wood finish. Featuring adjustable concave and convex carbon steel blades, these tools are great for easily smoothing, sculpting, and refining a variety of curved wooden surfaces such as chair legs and bowls. A durable cast iron body makes them ideal for prolonged use in heavy duty environments.

Concave & Convex Spokeshave

- Designed specifically for working on concave and convex surfaces
- Ideal for shaping curved profiles such as wooden bowls or furniture legs
- Adjustable carbon steel blades for accurate scraping action
- Cast iron body for durability and stability during use
- Ergonomically designed handles for control and comfort

Part No.	Description	Barcode
SSCON	Concave & Convex Spokeshaves	5012095633235

The new Flat Spokeshave is an essential for any carpenter seeking a professional wood finish. Featuring an adjustable flat carbon steel blade, this tool is great for easily smoothing, sculpting, and refining a variety of flat or slightly curved wooden surfaces. A durable cast iron body makes it ideal for prolonged use in heavy duty environments.

Flat Spokeshave

- Flat, carbon steel blade designed for use on level or slightly curved surfaces
- Ideal for shaping flat profiles such as chair legs and trims
- Adjustable carbon steel blades for accurate scraping action
- Cast iron body for durability and stability during use
- Ergonomically designed handles for control and comfort

Part No.	Description	Barcode
SSFLAT	Flat Spokeshave	5012095633228

A new addition to the popular range of S&J Carpenters' tools, the 3" Trimming Plane is a compact size used for trimming cuts on jointed boards, modelling, sculpture, and other light woodworking applications.

Carpenters' 3" Trimming Plane

- SK4 steel blade for lasting sharpness
- Strong cast iron body
- Precision milled base
- Hard wearing brass adjusting screw
- 1" (25mm) wide low angle cutter
- Ideal for trimming cuts on jointed boards, modelling, sculpture and other light applications
- Replacement blades available - CTP3BLADE

Part No.	Description	Barcode
CTP3	Carpenters' 3" Trimming Plane	5012095631187
CTP3BLADE	Carpenters' 3" Trimming Plane Spare Blade	5012095631194

Introducing the new Heavy Duty Carbide Scraper, a versatile tool engineered for tough surface preparation tasks and the efficient removal of stubborn materials such as paint, rust, adhesives, caulk, silicone, and grout. Featuring a 64mm (2.5") carbide steel blade, this scraper is perfect for covering large surface areas while delivering exceptional durability and long-lasting sharpness. Constructed with a lightweight aluminium alloy body and a soft-feel ergonomic grip, it offers maximum comfort and control - ideal for prolonged use in demanding environments.

Heavy Duty Carbide Scraper & Spare Blade

- Lightweight aluminium alloy body with soft-feel grip for user comfort
- High quality carbide steel blade for strength and lasting sharpness
- 64mm (2.5") blade length allows the scraper to cover large surface areas for convenient, speedy working
- Ideal for removing a wide variety of unwanted materials/coatings such as paint, rust, adhesives, caulk, silicone, and tile grout. May also be used for scuffing and surface preparation
- Replacement blades available - HDCSSBLADE

Part No.	Description	Barcode
HDCSS	Heavy Duty Carbide Scraper	5012095632931
HDCSSBLADE	Heavy Duty Carbide Scraper Replacement Blade	5012095632948

MARK, MEASURE & CUT

NEW

Introducing the 2-In-1 Trimming Knife and Scraper, a multi-functional utility knife that can easily be converted into a scraper. In utility knife mode, it may be used for cutting cardboard, carpet, plastic, vinyl and rope. In scraper mode, it may be used for scraping away paint, putty, adhesive and labels.

2-In-1 Trimming Knife & Scraper

- Durable all metal body with anti-slip handle grip
- Blade may be rotated 90° converting the trimming knife into a scraper
- The blade folds neatly back into the body for easy carriage and safe storage
- Integral spare blade holder within the handle
- Simple, quick, blade change mechanism
- Comes with 10 spare blades
- Replacement packs of 10 blades are available - SJ1790BP10

Part No.	Description	Barcode
SJ1790	2-In-1 Trimming Knife & Scraper	5012095630883
SJ1790BP10	2-In-1 Trimming Knife & Scraper Spare Blades (10 Pack)	5012095630890

Introducing the new Aluminium Chalk Line. Designed for efficiency, it features a high-speed chalk reel that rewinds three times faster than standard models, allowing you to mark long, straight lines with ease. Made from aluminium, ABS, and stainless steel, this tool is ideal for harsh environments where durability and reliability is needed.

Aluminium Chalk Line

- 3:1 gear ratio, rewinds the line 3x faster than a standard chalk reel
- Aluminium and ABS body with a robust steel handle for strength and durability
- 30m/100ft Bi-colour cotton string with stainless steel hook
- Easy line release button for user convenience
- Easy hinge locking system allowing for quick refills and reduction in spillages

How it works

- The 30m/100ft cotton string is wound inside the case containing coloured, powdered chalk
- As the string is pulled out it is coated in the chalk powder
- The string is stretched tight between two points and then you snap the string by lifting it slightly and letting go. As the string snaps down it leaves behind a straight chalk line on the surface.

Part No.	Description	Barcode
CHALKLINE	Aluminium Chalk Line	5012095631590

BUILDERS' TOOLS

The new range of Tuck Pointers is ideal for a wide variety of brick work, installations, and finishing applications. Available in multiple blade sizes, these tools provide precise control for applying, shaping, and finishing mortar across different joint widths. Designed to deliver clean, accurate results, they are suitable for both professional tradespeople and DIY enthusiasts, making them an excellent choice for restoration, repair, and detailed masonry work.

Tuck Pointer Trowels

- Fabricated Carbon Steel Blade
- Soft-feel handles with extra high tangs for increased knuckle clearance
- Available in the following blade sizes: -
1/4" (6mm), 3/8" (10mm), 1/2" (12mm), 3/4" (19mm), 1" (25mm)

Part No.	Description	Barcode

TUCK1SF	1" (25mm) Tuck Pointer, Soft-Feel Handle	5012095633181

LIFTING TOOLS

NEW

Introducing the new Suction Cups, made from aluminium for enhanced strength, durability, and support. Available as a single or double cup, they are designed to lift weights up to 50kg for the single cup version and 110kg for the double cup version. The robust lock and release mechanism makes it easy for users to securely grip and manoeuvre flat surface materials such as glass sheets, kitchen counter tops, and bathroom tiles.

Aluminium Suction Cups

- Aluminium body for strength and durability
- Strong suction grip for easy lifting of flat, smooth surface materials
- Easy lock and release mechanism for user convenience
- 118mm diameter suction cup
- Available in two different sizes :
- Single Aluminium Cup (lifting capacity of 50kg)
- Double Aluminium Suction Cup (lifting capacity of 110kg)

Part No.	Description	Barcode
ASCS118	Single Aluminium Suction Cup	5012095632528

Introducing Spear & Jackson's new Ratchet Straps, available in two popular sizes. Designed for convenience, they feature an auto-retractable mechanism that allows for easy, one-person operation. Built with a durable carbon steel body and a thick, blue polyester strap, these products are ideal for tough environments where both strength and visibility are essential

Ratchet Straps

- Auto-retractable strap mechanism for easy use
- Thick, blue polyester strap for strength and visibility
- Chrome plated carbon steel body, suitable for tough environments where vigorous use is needed
- Available in two different sizes :
 - Ratchet Strap 25mm x 3m
 - Ratchet Strap 50mm x 3m
